EDUCATION

Bachelor of Engineering in Information Technology *Nov 2022 – June 2026*
St. Francis Institute of Technology, Mumbai **8.78 CGPA**

SKILLS

Languages: JavaScript, Typescript, Python, SQL, C
Technologies/Frameworks: Next.js, React, React Native, Flask, PostgreSQL, MongoDB, Prisma, Tailwind CSS, Auth.js
Developer Tools: VS Code, PyCharm, Figma, Git & GitHub, Postman

WORK EXPERIENCE

Full Stack Developer Intern *June 2025 – Oct 2025*
QuickYearning Private Limited — DiamondRock (diamondrock.in)

- Migrated the legacy **React frontend** to a modern **Next.js framework**
- Refactored and integrated the entire **Node.js backend** into the **Next.js API routes architecture**
- Deployed the Next.js application on **Vercel** for seamless **CI/CD** and hosting it on **GoDaddy** domain.
- Integrated real-time and historical stock market data using **Stock Market API** and **WebSocket feeds**, building dynamic, interactive financial charts.
- Created and managed **Github Organization** for efficient collaboration, added team-based roles and permissions.

PROJECTS

Inikit 🔗 Npm package 🔗 Github Repo *May 2025 - Jun 2025*
Technologies: Next.js, React, TypeScript, Tailwind CSS, Prettier, ESLint, Husky, Commitlint, Node.js, npm

- Developed a **CLI tool** to scaffold **Next.js** and **React** projects with customizable options.
- Automated project setup with support for **TypeScript**, **Tailwind CSS**, **Prettier**, **ESLint**, **Husky**, **Commitlint** and dev tools like **Prettier** and **ESLint** with custom configuration templates.

Printeze 🔗 Website *Feb 2025 - Apr 2025*
Technologies: Next.js, React, TypeScript, Tailwind CSS, Prisma, Auth.js, Google Drive API, pdf-lib, Zod

- Developed a full-stack **document management application** using Next.js, React, and TypeScript, enabling users to upload, merge, and manage PDF files.
- Integrated **Google Drive API** for secure file storage, folder management, and permission handling, including OAuth2 authentication and token refresh workflows.
- Implemented server-side logic for **user authentication** and session management with NextAuth and Prisma, ensuring secure access to user data.

AutoQPG *Dec 2024 - Present*
Technologies: Next.js, React, TypeScript, Prisma, Tailwind CSS, React Hook Form, Zod, Shadcn/ui, Auth.js

- Developed and maintained **reusable React components** and **dynamic forms** using **Next.js**, **TypeScript**, and **React Hook Form** for efficient question paper generation and user management.
- Implemented authentication, **role-based dashboards**, and responsive UI with **Radix UI** and **TanStack Table**, ensuring secure and user-friendly admin and teacher workflows.

LEADERSHIP / EXTRA CURRICULAR

Information Technology Students' Association, SFIT *July 2023 - June 2025*
Web Master

- Developed and managed the official **ITSA website**.
- Conducted workshops to expose students to **leading domains in technology**, providing them with a head start.

ACHIEVEMENTS

- Achieved the position of **#1 Hacker** in **CodeXpress 6.0 and 7.0** on two occasions.
- Secured **2nd Runner-up** in the **Colloquium 2025** project competition.
- Awarded **First Prize** in the **Java Jumpstart** Workshop.
